Mugilan M

Software Test Engineer | QA Engineer | Manual & Automation Testing | API & Mobile Testing
Chennai, India | +91 9042290979 | Mugilanmugilan636@gmail.com | linkedin.com/in/mugilan-m-4b953527b

SUMMARY

Software Test Engineer with **1+ year** of experience in **quality assurance**, having executed **1,500+ test cases**, reported **430+ defects**, and validated **60+ REST APIs** across **manual, functional, API, regression, and mobile application testing**. Skilled in **test case design**, **requirement analysis**, **defect tracking**, and **UI validation** across development, QA, and staging environments. Validates REST APIs using **Postman and Swagger** and is building **UI automation** with **Python and Playwright**.

SKILLS

Testing: Manual Testing, Automation Testing, Functional, Regression, Smoke, Sanity, Black Box, UI, End-to-End
Platforms: Web Applications, Mobile Applications, Cross-Platform Data Validation
Scenario Design: Test Cases, Scenarios, Positive and Negative Cases, Edge Cases, Requirement Analysis
API Testing: REST APIs, Postman, Swagger, HTTP Status Codes, JSON Validation
Automation: Python, Playwright, Web UI Automation, Locators, Assertions
Defect Management: Bug Reporting, Bug Tracking, Defect Life Cycle, Retesting
QA Process: SDLC, STLC, Quality Assurance

PROFESSIONAL EXPERIENCE

Associate QA Sep 2025 - Present
PROPERTY AUTOMATE

- Managed QA for **4 facility management modules**: **Visitor Management, Parking Management, Contact Management, and Facility Operations**.
- Validated features against **business requirements and user stories** through structured **functional testing**.
- **Designed and executed 1,500+ test cases** covering end-to-end workflows, including **positive, negative, and edge-case** scenarios.
- Verified **60+ REST APIs** in **Postman and Swagger**, checking **HTTP status codes**, response data, and JSON fields.
- Executed **mobile app QA** for the current project, covering **user workflows, navigation, form validations**, and **UI consistency across devices**.
- Analyzed mobile and web data with **backend API responses** to confirm **data accuracy across platforms**.
- Audited **UI components** such as form fields, buttons, search filters, and validation rules.
- Conducted **regression cycles for 2 sprint releases per month**, **confirming bug fixes** to keep existing features stable.
- Reported and tracked **430+ defects** through the **defect life cycle**, partnering with developers to **resolve issues faster**.
- Coordinated validation across **3 environments**: development, QA, and staging, supporting **stable releases**.

PROJECTS

UI Automation with Python and Playwright Ongoing

- Developed **Playwright scripts in Python** to automate repetitive regression workflows of the web application.
- Engineered **reliable locators, assertions, and reusable functions** to create maintainable checks and **reduce manual effort**.

EDUCATION

Master of Science in Software Engineering (MSc) 2020 - 2025
Annamalai University

STRENGTHS

Attention to Detail | Analytical Thinking | Problem-Solving | Teamwork | Communication
