MUGILAN - SOFTWARE TESTER & QA AUTOMATION ENGINEER

Tamil Nadu, India | Mugilanmugilan636@gmail.com | linkedin.com/in/mugilan-qa

---

PROFESSIONAL SUMMARY:

Passionate Software Tester focused on delivering reliable, high-quality software through effective manual and automated testing practices. Experience in functional testing, test case design, bug identification, REST API testing & Swagger validation. Continuously developing test automation skills using Python, Pytest, and Playwright.

TECHNICAL SKILLS:

- Manual Testing: Functional, Regression, Smoke, Sanity, Exploratory, BVA, EP, STLC/SDLC
- Automation Testing: Python, Pytest, Page Object Model (POM), XPath, CSS Selectors, Test Validation
- API Testing: Postman, Swagger / OpenAPI, REST API, HTTP Methods (GET, POST, PUT, DELETE), JSON Validation
- Database: SQL, MySQL, Basic CRUD Operations, Data Integrity Validation
- Tools: Git, GitHub, Jira, VS Code, Chrome DevTools

PRACTICAL WORK & PROJECT EXPERIENCE:

1. Web Application Automation Testing Framework (Python, Pytest, POM)
   - Automated login, navigation, form boundary validation, and checkout workflows.
   - Implemented Page Object Model (POM) pattern for maintainable tests.
2. REST API Testing and Automation (Postman, Swagger / OpenAPI, Python Requests)
   - Validated status codes, Swagger contracts, JSON response schemas, and token authorization.
3. Property Management System QA Case Study (Manual, API & Database QA)
   - Designed test suites covering tenant onboarding, lease lifecycle, and maintenance tickets.
   - Tested Swagger API endpoints for listings, rent calculations (BVA), and SQL integrity.
4. Functional Testing & Defect Management
   - Designed positive/negative test matrices, tracked defects in Jira with reproduction steps.

METHODOLOGY & EDUCATION:

- Six-Step Testing Approach: Analysis, Planning, Design, Execution, Reporting, Regression
- Committed to Continuous QA Learning & Defect Prevention
